Turkish Youth!

Your first duty is to preserve and to defend the Turkish independence and the Turkish Republic forever. This is the very foundation of your existence and your future. This foundation is your most precious treasure. In the future, too, there may be malevolent people at home and abroad who will wish to deprive you of this treasure. If some day you are compelled to defend your independence and your republic, you must not tarry to weigh the possibilities and circumstances of the situation before taking up your duty. These possibilities and circumstances may turn out to be extremely unfavourable. The enemies conspiring against your independence and your republic, may have behind them a victory unprecedented in the annals of the world. It may be that, by violence and ruse, all the fortresses of your beloved fatherland may be captured, all its shipyards occupied, all its armies dispersed and every part of the country invaded. And sadder and graver than all these circumstances, those who hold power within the country may be in error, misguided and may even be traitors. Furthermore, they may identify their personal interests with the political designs of the invaders. The country may be impoverished, ruined and exhausted.

Youth of Turkey's future,
Even in such circumstances it is your duty to save the Turkish independence and Republic. You will find the strength you need in your noble blood.

M. Atatürk

Turkish Youth!

Your first duty is to preserve and to defend the Turkish independence and the Turkish Republic forever.
This is the very foundation of your existence and your future. This foundation is your most precious treasure. In the future, too, there may be malevolent people at home and abroad who will wish to deprive you of this treasure. If some day you are compelled to defend your independence and your republic, you must not tarry to weigh the possibilities and circumstances of the situation before taking up your duty. These possibilities and circumstances may turn out to be extremely unfavourable. The enemies conspiring against your independence and your republic, may have behind them a victory unprecedented in the annals of the world. It may be that, by violence and ruse, all the fortresses of your beloved fatherland may be captured, all its shipyards occupied, all its armies dispersed and every part of the country invaded. And sadder and graver than all these circumstances, those who hold power within the country may be in error, misguided and may even be traitors. Furthermore, they may identify their personal interests with the political designs of the invaders. The country may be impoverished, ruined and exhausted.

Youth of Turkey's future,
Even in such circumstances it is your duty to save the Turkish independence and Republic. You will find the strength you need in your noble blood.

M. Kemal Atatürk

This week is going to be quite busy. I'm going to see the doctor at 10:30 on Monday morning because I have a terrible pain in my back from time to time. Then, I'm going to do the shopping at the grocery shop, but I'm going to buy some minced meat and sausages at our butcher's on the corner of St. Peterson Street. I'm going to cook some pasta with bolognaise sauce for the evening.

On Tuesday, I've an important appointment at the Forster. It's an insurance company. I'm going to apply for a job position at the company. Then, I'm going to go to my son's school for the parents meeting at 16:30.

On Wednesday, I'm going to meet my friends at a bistro restaurant on Aqua Lane. It's called Parisian Bistro. We are going to chat and have lunch together. In the evening, I'm going to work on my book. I'm trying to write a crime novel. I'm thinking of a detective series.

On Thursday, I'm going to go to the library. I'm going to join my book club and exchange some books that I have borrowed. Later, I'm going to have a haircut at the hairdresser. Maybe, I will dye my hair, but I'm not sure about that yet.

Friday is going to be my favourite day because I'm not going to cook. I'm going to arrange a surprise dinner for the family. I'm going to book a dinner table at a Chinese restaurant because my husband, John, is crazy about Asian food and later on, I'm going to arrange a birthday cake and drinks. All these will be a surprise for John because it will be his birthday. I hope he will like it.
