Turkish Youth!

Your first duty is to preserve and to defend the Turkish independence and the Turkish Republic forever.

This is the very foundation of your existence and your future. This foundation is your most precious treasure. In the future, too, there may be malevolent people at home and abroad who will wish to deprive you of this treasure. If some day you are compelled to defend your independence and your republic, you must not tarry to weigh the possibilities and circumstances of the situation before taking up your duty. These possibilities and circumstances may turn out to be extremely unfavourable. The enemies conspiring against your independence and your republic, may have behind them a victory unprecedented in the annals of the world. It may be that, by violence and ruse, all the fortresses of your beloved fatherland may be captured, all its shipyards occupied, all its armies dispersed and every part of the country invaded. And sadder and graver than all these circumstances, those who hold power within the country may be in error, misguided and may even be traitors. Furthermore, they may identify their personal interests with the political designs of the invaders. The country may be impoverished, ruined and exhausted.

Youth of Türkiye's future,
Even in such circumstances it is your duty to save the Turkish independence and Republic. You will find the strength you need in your noble blood.

Russian

science

years old

Spain

Türkiye

Efe is eleven 1. _____ and he is a student at 5th grade. He is from 2. _____. Efe is in England for a summer school. This is the first day of school. There are a lot of students from different countries. Everyone introduces themselves and says "hello" to each other. There is a Spanish girl. Her name is Maria. She is from 3. _____. She is good at sports. She can play table tennis very well. There is a 4. _____ boy. His name is Alex and he is from Russia. He loves drawing pictures.

Today, they have 5. _____ class. It is Efe's favorite class because he loves doing experiments. Alex, Maria and Efe are in the same group. Now, they are doing an experiment "Volcano". They need hot water, some detergent, some carbonate and vinegar for the experiment. First, they mix hot water and detergent. Then, they put the carbonate and lastly, Alex pours the vinegar. Opps! Bubbles! The bubbles splash on Alex's face. He looks so funny. They have a funny first day. They become very good friends.
