I'm Archimboldo, but my friends call me Archi. I'm 13 years old. I live in Rome. Rome is a beautiful city in Italy. I go to a painting club on weekends. I love drawing natural things, animals, flowers, vegetables and fruits.

It's summer holiday now and I'm really happy because I'm going to a summer camp for holiday. The camp is in a village. My father says it is a science and art village. I am going there by train. There are many students in the camp from all over the world.

The train leaves Rome at 10:30 a.m. I prepare my suitcase. I put my toothbrush and toothpaste in my bag because I brush my teeth three times a day! I enjoy reading at nights, so I take my books.

I want to collect flowers, plants, vegetables and fruit to paint for my pictures. I hope I can find different plants in the village. I'm so excited. My mother says there is drawing equipment at the camp. That's really great!

I leave home at 10 a.m. and arrive to the train station at 10:15 a.m. The train station is crowded. I say goodbye to my parents and then, I get on the train. I'm on my way now!
