I'm Hale. I'm 13 years old. I live in a town. Our town is near the sea. Everybody knows each other in the town because it's small. There is only one school in our town. There are 30 students at school. There are 13 students at the middle school and 17 students at the primary school. We're 5 students in the 7th grade. The school starts on Monday.

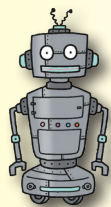

I love my town, but sometimes, it is boring. My family and I live on our farm. I work on our farm at weekends. I must leave now! We're going to the city. We are going to do some shopping. I need new notebooks, pencils and pens for school. I'm excited because I like going to the city. It's bigger than my town.

There is a big cinema in the city. I usually go to the cinema. Oh! My mom says that we have one hour to reach the city. I look around on the way. The view is beautiful. The sea is on one side and the forest is on the other side! We go to the city twice a month. I love travelling!
